## **DETAILED ACTION**

## Allowable Subject Matter

- 1. Claims 162-163 are allowed.
- 2. The following is an examiner's statement of reasons for allowance in combination with other claim limitations:

Independent claims 162 and 163, when considered as a whole, are allowable over the Prior Art of record. Specifically, the Prior Art of record fails to teach that the editing system contains the plurality of modules for selectively performing one or more editing, composing, and special effects processing on the plurality of clips to produce the first and second resultant clips, and the display means for displaying the table of horizontally aligned row and vertically columns, wherein the table including at least automatically generated textual indicia identifying the plurality of clips as being material clips or resultant clips, wherein the indicia indicating the modules used to process the clips, the table further identifying the second resultant clips produced as the result of processing performed on the first resultant clips, and the table further indicating the duration of the plurality of clips and having the enable/disable flag for each of the plurality clips, and the control means for controlling the plurality modules based on the information registered in the database, updating the content of the first clips registered in the database, updating the content of the resultant clips produced from the first resultant clips, and the means for controlling the process of overwriting/updating the clips in the database.
